ENTRY-LEVEL SOFTWARE DEVELOPER

BUILDING A BETTER TOMORROW THROUGH TECHNOLOGY

PROFILE

Motivated Computer Science degree candidate with hands-on experience in full-stack web development, database design, system analysis, and API integration. Skilled in developing web and desktop applications using technologies such as Next.js, Vue.js, Node.js, C#, and Microsoft SQL Server. A quick learner with strong adaptability and problem-solving skills, eager to contribute to real-world software projects and grow as a software developer.

EDUCATION

Bachelor of Computer Science (Degree Pending)

University of Computer Studies, Meiktila

- Completed academic requirements and currently awaiting degree conferment.
- Relevant areas: Software Engineering, Database Systems, Web Development, OOP, System Analysis & Design.

INTERNSHIP EXPERIENCE

Software Development Intern

May 2026 – July 2026

Naung Yoe Technologies Co., Ltd. | Nay Pyi Taw, Myanmar

- Gained practical experience in system analysis, database design, frontend and backend development, testing, and debugging.
- Developed and maintained features using Next.js, Node.js, Vue.js, Drupal, Vuetify, Express.js, C#, and Microsoft SQL Server, MySQL.
- Contributed to the Warehouse and Finance modules of the Naung Yoe Inventory Control System.
- Improved teamwork, communication, and problem-solving skills.

PROJECT EXPERIENCE

Unity-Care: Charity Event and Volunteer Engagement Platform (Vue.js, Node.js, Express.js, MySQL)

- Developed a web-based platform for managing charity events, volunteer participation, and user activities.

University Events and Volunteers Management System (Next.js, Node.js, Express.js, Microsoft Server)

- Developed a web-based system for managing university events, volunteer registration, and participation.

Inventory Management System (Vuetify, C#, .NET Framework, Microsoft SQL Server)

- Contributed to Warehouse and Finance modules by implementing stock management, purchase requests, budget approval, supplier ordering, and product allocation workflows.

Resume Analysis (NLP- Python, Streamlit)

- Developed an NLP-based Resume Analysis system that extracts resume information and ranks candidates based on job requirement similarity.

IQ Test Game (C#)

- Developed an interactive IQ test game with multiple-choice questions, answer validation, and score calculation.

Hand Gesture Project (Python)

- Developed a Python-based hand gesture recognition application for detecting and interpreting hand movements.

Tour Guide Website (Next.js, Node.js, Express.js, Node.js, MySQL)

- Developed a full-stack tour guide website for exploring destinations, managing user profiles, and accessing travel information.
